

Live Worship Sunday in the Sanctuary at 10 a.m.

Please adhere to proper COVID protocol so that we can help keep each other safe:

- Wear a CDC-approved mask properly (even if you have been fully vaccinated).
- Enter the church building through the front glass door only.
- Temperatures will be taken and attendance record (in case we need to do contact tracing).
- Go directly to the sanctuary.
- Restrooms are available, please wash hands.
- Maintain spacing and social distance.
- Office-printed bulletins will not be available. Please print yours beforehand (if you didn't receive one via email, it can be downloaded from the Media page on this site).
- PLEASE REFRAIN FROM CONGREGATIONAL SINGING.
- Understand that this is frustrating for all of us.
- Everybody is still learning and we will tweak our procedures as it becomes necessary and safe.

! Currently, Kalamazoo County is Extremely High Risk, Level D, with a COVID-test positivity rate on seven day average at 16.7%. If you are doubtful about your health, please stay home. !

We realize that there are varying levels of comfort and some of us may still not be ready for in-person worship. Please don't feel guilty about it. With God sincerity goes a long way. Worship will be recorded, edited, and uploaded to YouTube by Monday at the latest.
